

The **5th Latin-American Congress on Photocatalysis, Photoelectrochemistry and Photobiology** will take place from September 24 to 30, 2017. at the University of Guanajuato and Hotel Real de Minas, Gto., Mexico.

You're welcome to join the conference to communicate with the distinguished speakers and share your research results. We offer Registration Fee including work lunches.

For more information, please visit: <http://www.dcne.ugto.mx/lacp3-2017/> or emails.
lacp2017@ugto.mx and lacppp2017@gmail.com

Some distinguished Speakers

- Prof. Yun Hang Hu Department of Materials Science and Engineering, Michigan Technological University
- Prof. Horst Kisch Institute of Inorganic Chemistry, University of Erlangen-Nürnberg

Pre-Congress School:

- Prof. Marta Litter, Advanced Oxidation/Reduction Technologies for treatment of waters, air and soils.
- Prof. Miguel Avalos, Electron Energy Loss Spectroscopy (EELS): Theory and applications.

There will be a practical session where participants will analyze their own sample.

There will be some social activities:

Wednesday 27: In Guanajuato there are famous parties known as “callajoneadas”, lead by university students and musicians dressed in traditional costumes.

Saturday 30: Trip to San Miguel de Allende. San Miguel de Allende took 3rd place on Travel + Leisure’s 2016 “World’s Best Cities” List!

Last opportunity for be part of the meeting: July 22, 2017, No extension is allowed

Selected works presented in the 5th-LACP will be published in a special issues in **Sustainable Environmental Research and Catalysis Today**.

You're welcome to attend our conference or submit your abstract through email for an oral presentation, oral communication or poster.
